

How to Upload a YouTube Video to an Assignment

Uploading a YouTube video to a Google Classroom assignment is quick and easy. Begin by creating a new assignment from the Classwork tab. Complete the fields necessary for the assignment, and then click the YouTube icon at the bottom of the Assignment dialogue box.

The Insert Video dialogue box will appear which allows users to search for and upload YouTube videos as well as upload videos from a URL/link. Enter keywords into the YouTube search bar and click the magnifying glass (or hit Enter). The name of notable YouTube Channels can also be entered into the search bar to increase the reliability of search results (History Channel, Discovery Networks, National Geographic, Khan Academy, etc).

Once the search results load, choose the video to be uploaded and click the red Add button on the bottom left of the dialogue box. The video will then upload to the assignment for students.

How to Use YouTube Videos in Google Classroom

There are a multitude of strategies that can be used in Google Classroom with YouTube videos. Here are a few which encourage communication and allow for differentiation as well as increase engagement for students.

Conversation Starters

- Share a video with the entire class through the Classroom Stream to start an in-class whole group or small group discussion.
- Start an online discussion by uploading a video to a Question on the Classwork tab in Classroom.

Assignment

For
English Lit 18/19 2
All students

ASSIGN

You can also add YouTube videos as a material for students to view if they need additional help, or if there is a resource you want to share but don't want it as an assignment. To Do this first click create on the classwork tab. (see below)

Test class

Stream
Classwork
People
Grades

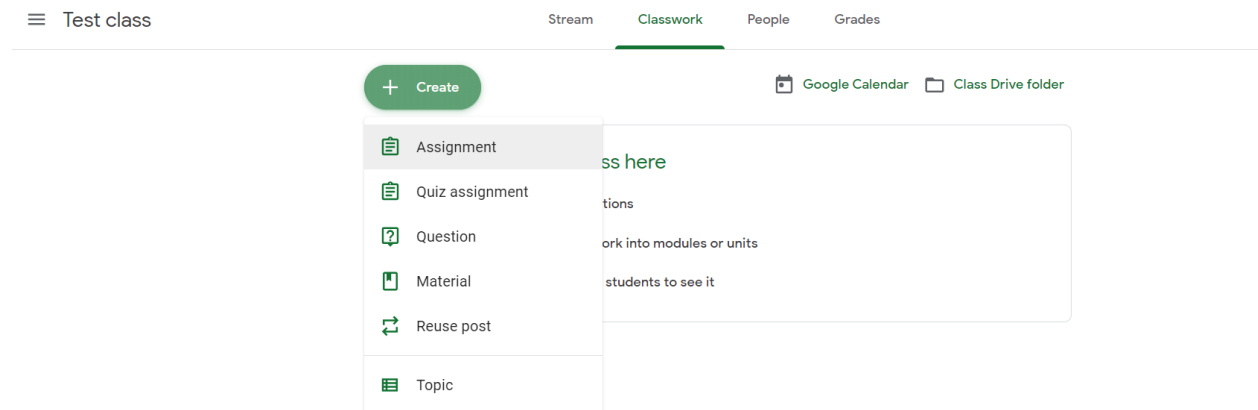

Create

Assign work to your class here

- Create assignments and questions
- Use topics to organize classwork into modules or units
- Order work the way you want students to see it

Google Calendar
 Class Drive folder

Then click material in the create drop down

Next click the attach/add button and choose YouTube. You can browser for videos the same way or add via a URL/link by clicking link
